

CLL Society Support Group

Central Florida

Tuesday, February 21, 2017

6-8 p.m.

Gruden Huddle Room

Moffitt Cancer Center McKinley Campus

“Novel Therapies for CLL: What’s in the Pipeline?”

Presentation by Javier Pinilla-Ibarz, MD, PhD

Associate Faculty Member

Director of Immunotherapy

Department of Malignant Hematology

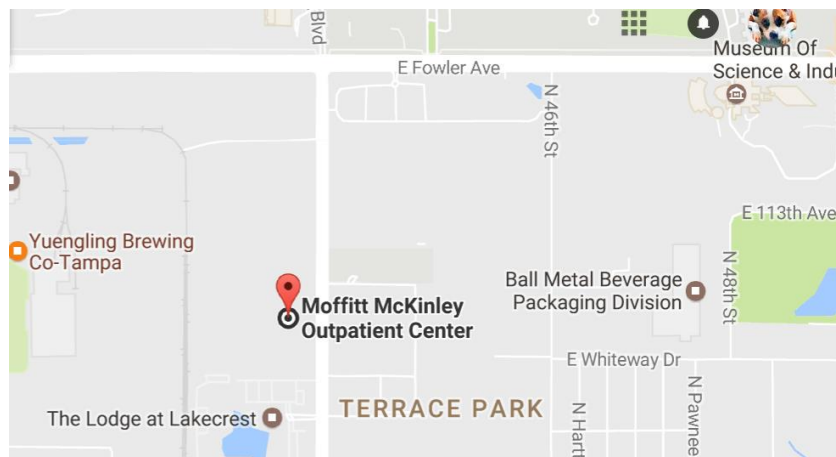

Moffitt Cancer Center

Associate Professor of Oncologic Sciences

University of South Florida

Dr. Pinilla will speak about new therapies in the pipeline for both relapsed as well as previously untreated CLL and answer questions about those therapies.

Please RSVP to Archie Banfield archiebanfield25@gmail.com

Moffitt McKinley address is 10920 McKinley Dr, Tampa, FL 33612. The Gruden Huddle Room is on the SW side of the first floor, closest to the door to the Parking Garage. The room is to the left as you enter the building from the South Side. We recommend you self-park in the parking garage. The Valet service will most likely be shut down by the end of the meeting. The Parking Garage is less than 100 yards SW of the main building.
